IDEMIA continues to demonstrate its **industry leadership in biometrics** with several recent contracts with U.S. states that will support **fingerprint capture** in background checks for a wide range of jobs and activities.

Notably, the new contracts are with the States of **Washington, West Virginia, South Carolina, Louisiana, and Texas**.

At the same time, IDEMIA has also been awarded a new contract with the **State of Delaware** for enrollment services including **digital fingerprinting**.

The contract terms range between two to seven years, and mostly come with the option of incremental one-or-two-year renewals.

IDEMIA delivers expertise deeply rooted in biometric technology. In the United States, IDEMIA provides **identity verification and enrollment services** to more than two dozen states and is the leading **driver's license provider** to 36 states representing 70 percent of the driver's licenses issued in the United States.

IDEMIA is also an authorized service provider for the Transportation Security Administration (TSA) and one of the few companies approved to submit fingerprints to the Federal Bureau of Investigations (FBI) as well as receive background check information from the FBI.

Additionally, IDEMIA is the trusted provider to thousands of state and county agencies for secure enrollment, issuance, and verification of **physical and digital identity credentials** which enable interactions with government agencies, ensuring greater citizen inclusion, and the delivery of mission-critical services.
