

# IDEMIA Secure Transactions and Infineon Technologies Unveil a Strategic Partnership Dedicated to the Future of Automotive Industry

IDEMIA Secure Transactions, a global leader in payment and connectivity solutions, and Infineon Technologies AG, a global semiconductor leader in power systems and IoT, have announced a first-of-its-kind strategic partnership to tackle the challenges of the new era of car access. In a move that reflects the accelerating shift toward digital-first mobility, this collaboration will more than ever unlock new levels of convenience in how drivers interact with their vehicles. It marks a step toward a smarter, more secure, and more connected driving experience.

## Driving the Future of Digital Car Access

This partnership represents a key milestone in the advancement of Software-Defined Vehicles (SDVs). As the automotive industry accelerates its digital transformation, IDEMIA Secure Transactions and Infineon are enabling car manufacturers to meet growing demands for secured, flexible, and connected vehicle access.

Infineon and IDEMIA Secure Transactions (IST), each pioneer in their domain, are uniting their strengths to shape the future of connected mobility and associated security challenges. Through Infineon's dependable electronics, and IST secure embedded software and cloud solutions, the partnership enables reliable automotive quality, functional safety, and cybersecurity for all kinds of vehicles, earning the trust of drivers. The collaboration brings together hardware security, cryptography, and automotive compliance, laying the groundwork for a post-quantum cryptography world.

## An Industry-First Collaboration

This partnership is the first-of-its-kind in the automotive sector. The two companies are collaborating to leverage each other's expertise, combining their strengths to pave the way for a new era in the industry. Infineon's hardware and security know-how coupled with IDEMIA Secure Transactions' expertise in cloud connectivity and vehicle access, enables a truly comprehensive ecosystem from car to cloud.

*By joining forces with Infineon, we bring together unmatched expertise in both hardware and software to deliver a new standard in secure, seamless, and scalable car access for the auto makers. This partnership reinforces IDEMIA Secure Transactions' leadership in the automotive*

*sector and our ability to anticipate the future of connected mobility.*

Philippe DE OLIVEIRA, SVP Automotive & IoT Business Line at IDEMIA Secure Transactions

*IDEMIA Secure Transactions is a leader in connectivity, security, and digital solutions for automotive, and is already a reliable partner to Infineon. By working closer together, we can help shape the future of mobility.*

Tolgahan Yildiz, Vice President Trusted Mobile Connectivity & Transaction at Infineon Technologies

## A Partnership Built on Innovation and Ecosystem Synergies

By leveraging the technological expertise and well-established presence of both partners in the automotive industry, and Infineon being global number one in automotive semiconductors this announcement reinforces IST and Infineon's ambition to lead the digital transformation of the sector, expanding tremendously their business opportunities. This unique partnership will provide automotive manufacturers with more comprehensive and interoperable car access enablers than ever before, addressing both technological complexity and ease of use for the end user.

IDEMIA Secure Transactions and Infineon are firmly positioned as trusted partners for carmakers navigating the automotive industry's transition to Software Defined Vehicles.

**About IDEMIA Group** - IDEMIA Group unlocks simpler and safer ways to pay, connect, access, identify, travel and protect public places. With its long-standing expertise in biometrics and cryptography, IDEMIA develops technologies of excellence with an impactful, ethical, and socially responsible approach. Every day, IDEMIA secures billions of interactions in the physical and digital worlds.

IDEMIA Group brings together three market-leading businesses that enable mission-critical solutions:

- **IDEMIA Secure Transactions** is the leading technology provider who unlocks safer and easier ways to pay and connect.
- **IDEMIA Public Security** is a leading global provider of biometric solutions that unlock convenient and secure travel, access, and protection.
- **IDEMIA Smart Identity** leverages the power of cryptographic and biometric technologies to unlock a single trusted identity for all.

With a global team of nearly 15,000 employees, IDEMIA Group is trusted by over 600 governmental organizations and more than 2,400 enterprises in over 180 countries. For more information, visit [www.idemia.com](http://www.idemia.com) and follow @IDEMIAGroup on X.

**About Infineon** - Infineon Technologies AG is a global semiconductor leader in power systems and IoT. Infineon drives decarbonization and digitalization with its products and solutions. The company had around 58,060 employees worldwide (end of September 2024) and generated revenue of about €15 billion in the 2024 fiscal year (ending 30 September). Infineon is listed on the Frankfurt Stock Exchange (ticker symbol: IFX) and in the USA on the OTCQX International over-the-counter market (ticker symbol: IFNNY).
