

IDEMIA Secure Transactions and eSIM Go Empower Businesses with Secure, Scalable eSIM Services Across 190+ Countries

IDEMIA Secure Transactions (IST) and eSIM Go combine their expertise in secure connectivity and flexible digital infrastructure to enable nascent and established service providers (including brands in travel, telecom, fintech, and more) to offer and manage connectivity services effortlessly through eSIM technology.

CONNECTIVITY

POSTED ON 11.27.25

Empowering seamless eSIM experiences worldwide

As global demand for eSIM services accelerates, ensuring both simplicity and security has become critical. Through this collaboration, eSIM Go leverages IDEMIA Secure Transactions' proven remote eSIM provisioning platform, guaranteeing secure activation and seamless connectivity experiences across more than 190 countries.

By combining eSIM Go's flexible platform and IDEMIA Secure Transactions' trusted connectivity expertise, this partnership sets a high standard for secure and frictionless eSIM deployments. It empowers brands across industries such as travel, telecom and fintech to deliver fully branded, trusted eSIM services to their customers.

Combining security, scalability, and convenience

IDEMIA Secure Transactions and eSIM Go share the same ambition of delivering secure, reliable, and seamless eSIM connectivity to users around the world. IST leverages its trusted expertise in secure digital infrastructure to host the Consumer eSIM platform in Europe for eSIM Go. IST's multi-region architecture, ensuring robust resilience, data sovereignty, and full compliance with EU security standards. eSIM Go leverages a quality-mandated ecosystem of top-tier connectivity providers to deliver millions of eSIMs via B2B2C partner distribution via its award-winning, flexible, cloud-based platform.

eSIM Go benefits from IDEMIA Secure Transactions' tailored onboarding solutions, designed to meet diverse mobile operator security requirements while maintaining full control over eSIM profile management and service delivery, ensuring simplified integration for various brands and seamless global coverage for the end-users.

This partnership between eSIM Go and IDEMIA Secure Transactions illustrates how advanced security and exceptional user experience can go hand in hand. Together, we are helping companies around the globe to accelerate their digital transformation while ensuring the

highest levels of trust and protection for end users. We are very proud to support this transformation with the combined expertise of our teams and technologies.

Mikkel ESCARTIN, Head of Digital Solutions for Connectivity Services at IDEMIA Secure Transactions

As the eSIM market has grown, a clear distinction has emerged between those prioritizing quality versus the rest. At eSIM Go, quality and ease are everything. We understand the critical importance of security and provisioning when innovating and operating at scale. That's why IDEMIA Secure Transactions is an important part of our global best-in-breed infrastructure strategy. Combined with our Tier 1 MNO access in 190+ countries and an array of independently validated stability and quality measures, this ensures optimal reliability, performance and customer experience for our partners and their customers.

Darren SHAW, Chief Product Officer at eSIM Go

About IDEMIA Group - IDEMIA Group is a global technology leader with more than 12,500 employees worldwide. Its two market-leading divisions deliver mission-critical solutions that simplify and secure interactions in the physical and digital realms:

- **IDEMIA Secure Transactions (IST)** is the leading technology provider making it safer and easier to pay and connect. With unmatched expertise in cryptography and credential issuance, IST is trusted by over 2000 financial institutions, mobile operators, automotive manufacturers, and IoT providers worldwide. Every day, IST secures billions of essential transactions, ensuring the highest levels of data protection and convenience.

- **IDEMIA Public Security (IPS)** is a trusted provider of government-grade and secure biometric-based solutions for 600 government, state and federal agencies. With decades of experience in biometric technologies, IPS enables safer, frictionless and fairer ways to secure travel, access and citizen protection.
