

Frost & Sullivan Best Practices Award: IDEMIA awarded as the Company of the Year in the Global Biometric Authentication Solutions Market

IDENTITY

POSTED ON 04.04.18

IDEMIA, the global leader in Augmented Identity, is delighted to announce that it received Frost & Sullivan's 2017 Global Biometric Authentication Solutions Company of the Year award. As such, Frost & Sullivan recognizes IDEMIA's best-in-class and future-facing technology, customer-centric support, game-changing industry innovations and superior overall performance.

Against a background of growing security pressures, companies need to adopt more robust and comprehensive solutions to prevent identity theft and safeguard their assets. Biometrics offers a real opportunity to tighten security while making people's everyday lives easier. **Frost & Sullivan's independent analysis confirms IDEMIA's proven technology is ahead of its time and is world class in terms of growth, innovation, and leadership.**

For this award, Frost & Sullivan analysts reviewed two key factors: *Visionary Innovation & Performance* and *Customer Impact*. When issuing its findings, Frost & Sullivan highlighted the superior performance of **IDEMIA's frictionless biometric authentication solutions**, which provide end-users seamless **identity verification** based on real-time **face, iris or fingerprint recognition** in business premises or, for example, airports. Frost & Sullivan analysts also acknowledged IDEMIA's ongoing innovation and customer-focused technology that offers **biometric authentication** technology for use in everyday objects including smartphones and payment cards.

Falling under the Augmented Identity banner, IDEMIA's solutions draw on a vast array of highly advanced **biometric authentication** and **ID verification** technologies to enforce one straightforward thing, namely "only you can be you." IDEMIA's best-in-class technologies overcome challenges that typically include coping with peak volumes and continuing to work even when the light is very bright. Deployed all around the globe IDEMIA's solutions are extremely accurate to protect both individuals and businesses.

We are thrilled we have been awarded Frost & Sullivan's Global Company of the Year award for our biometric authentication solutions. We are proud to invent cutting-edge technologies that are acknowledged by independent experts and our clients.

Jean-Christophe Fondeur, Executive Vice-President for R&D activities at IDEMIA

As a direct result of its innovation-focused mission, IDEMIA delivers ground-breaking technology that is well ahead of its time, securing IDEMIA's position as a leader in the biometric authentication industry.

Tara Semon, Frost & Sullivan Best Practices Analyst

About IDEMIA - OT-Morpho is now IDEMIA, the global leader in trusted identities for an increasingly digital world, with the ambition to empower citizens and consumers alike to interact, pay, connect, travel and vote in ways that are now possible in a connected environment.

Securing our identity has become mission critical in the world we live in today. By standing for Augmented Identity, we reinvent the way we think, produce, use and protect this asset, whether for individuals or for objects. We ensure privacy and trust as well as guarantee secure, authenticated and verifiable transactions for international clients from Financial, Telecom, Identity, Public Security and IoT sectors.

OT (Oberthur Technologies) and Safran Identity & Security (Morpho) have joined forces to form IDEMIA. With close to \$3 billion in revenues and 14,000 employees around the world, IDEMIA serves clients in 180 countries.
