

Safran Identity & Security to expand to the Silicon Valley

Safran Identity & Security, a world leader in identity and security solutions, announced the opening of a location in the Silicon Valley at the end of 2016.

POSTED ON 10.25.16

Located in Redwood City, the new facility will be strategically positioned near the Silicon Valley and San Francisco high tech communities, featuring an **innovation center** with a specific focus on **digital payment, digital identity** and the **Internet of Things (IoT)**.

Visitors will be able to interact with Safran's hardware and software solutions and experience how the company drives digital transformation across the entire customer experience. This will include Safran's industry leading **biometric identification** and **authentication technologies**, featuring **fingerprint, facial recognition** and **iris biometric sensors, cloud-based solutions** and **software development kits for mobile devices**.

Being at the forefront of biometrics, digital identity and security technologies, it was the next logical next step for us to become a part of the vibrant innovation community in Silicon Valley. Through our new location, we want to enable the development community to interact with our products so that together we can design even better solutions.

Anne Bouverot, CEO, Safran Identity & Security

About IDEMIA - OT-Morpho is now IDEMIA, the global leader in Augmented Identity for an increasingly digital world, with the ambition to empower citizens and consumers alike to interact, pay, connect, travel and vote in ways that are now possible in a connected environment.

Securing our identity has become mission critical in the world we live in today. By standing for Augmented Identity, we reinvent the way we think, produce, use and protect this asset, whether for individuals or for objects. We ensure privacy and trust as well as guarantee secure, authenticated and verifiable transactions for international clients from Financial, Telecom, Identity, Public Security and IoT sectors.

OT (Oberthur Technologies) and Safran Identity & Security (Morpho) have joined forces to form IDEMIA. With close to \$3 billion in revenues and 14,000 employees around the world, IDEMIA serves clients in 180 countries.
