Mashreq Bank, one of the leading financial institutions in the UAE, boasts a proud tradition of introducing cutting-edge banking products for its customers. It was the first bank to introduce "Portrait", the UAE's first "selfie" credit card, which allowed card holders to upload a photo of their choice from their cell phone and receive a customized credit card.

Driven by its innovative culture, Mashreq was also one of the early adopters of metal cards in the UAE. Leveraging **IDEMIA's smart metal technology**, Mashreq introduced **personalized metal cards as a premium payment instrument**, replacing the Solitaire card, for its high-end customer segment in 2016.

Mashreq and IDEMIA: a history of leadership

Powered by IDEMIA's expertise in design and personalization services, the Mashreq **metal bank card** serves as a prestigious and unique status symbol for its card holders. This drive to ensure customer excellence has seen Mashreq Bank issue over 15,000 metal cards to its premium customers since its introduction. This is the highest number of metal cards issued by a single bank in the UAE.

We are extremely pleased to be working with IDEMIA for our metal card products. Throughout our partnership, IDEMIA has supported Mashreq with proven and innovative technology so that we are able to deliver a signature payment experience to our high-end segment to complement the lifestyle of our elite consumer base.

Pankaj Kundra, Head of Payments at Mashreq Bank

We are proud that our metal card technology has been Mashreq Bank's preferred choice since 2016. This is yet another step that deepens our relationship, which started out in 2011. As a market

leader in metal cards, IDEMIA strives to provide our clients with high-quality products that reflect their commitment to high-end customers.

Julia Schoonenberg, Senior Vice President (Middle East & Africa), Financial Institutions, IDEMIA
