

Holland Casino selects IDEMIA's SAFE Online Gaming Vault to support the certification and launch of its new online gaming website

Holland Casino – the largest gaming operator in the Netherlands – has selected IDEMIA to support them in the certification and launch of their new online gaming website.

POSTED ON 06.22.21

IDEMIA, the global leader in Augmented Identity, has been selected by Holland Casino, a Dutch state-owned company with fourteen casinos located throughout the country, to deliver its **Online Gaming Vault** to help with the launch their new online gaming site. IDEMIA's turnkey solution will enable Holland Casino to comply with the recently-published CDB specifications by the Kansspelautoriteit (the Netherlands Gambling Authority) and will ensure constant compliance with evolving regulatory changes.

IDEMIA's innovative platform improves data traceability and secure data storage across its operations in compliance with the country's specific regulations. The system ensures data integrity, timestamping and proof of origin, thereby ensuring data remains legally valid over time. The Vault also enables regulators to view data in their country at all times pursuant to specific country regulations. This state-of-the-art system gives lottery operators considerable flexibility can be rapidly installed and costs little to run.

IDEMIA's Online Gaming Vault continuously ensures ongoing monitoring of regulatory changes to easily and immediately address new requirements over time.

> *We are very excited to team up with Holland Casino and support them with our online platform. Our solution will ensure that Holland Casino remains in full compliance of evolving regulations, and protect their long-standing reputation as a responsible gaming company.*
