

IDEMIA wins contract with Dutch Public Prosecutor's Office on road safety

PUBLIC SECURITY

POSTED ON 06.23.22

- IDEMIA is proud to announce it has won, together with partner ARS Traffic & Transport Technology B.V., a tender together with two other suppliers with the Dutch Public Prosecutor's Office.
- This framework contract includes the procurement of up to 750 enforcements units in 10 or more lots in the Netherlands. It also comprises maintenance activities after the deployment of the solution for 6 years, with a possible extension up to 12 years.

IDEMIA, leader in identity technologies, together with partner ARS Traffic & Transport Technology B.V., has won a tender with the Dutch Public Prosecutor's Office. The framework contract includes the procurement of up to 750 road safety enforcement units in ten or more lots in the Netherlands for 3 suppliers. With IDEMIA, the MESTAcompact is one of the tendered solutions. The maintenance activities have a duration of 6 to 12 years and delivery of this equipment is expected from Q1 2023.

These sophisticated traffic monitoring systems help ensure traffic regulations are enforced to reduce accidents and increase road safety. Thanks to its combined speed measurement technologies and innovative video analytics, the MESTAcompact offers the most advanced features for monitoring speed and red-light running violations. Its low footprint allows easy and fast integration into urban environments.

With over fifty years' experience in road safety in Europe, Middle East, Americas, Asia-Pacific, IDEMIA MESTA Series helps improve road safety thanks to trajectory and video analysis.

We thank the Dutch Public Prosecutor's Office for its trust in IDEMIA and are looking forward to this long-term partnership, together with our partner ARS Traffic & Transport Technology. IDEMIA is proud to provide one of the most robust and recognised solutions on the market for road security and therefore to contribute to making citizens' lives safer in the Netherlands, as well as in other countries around the world.

Jacques van Zijp, Managing Director IDEMIA The Netherlands

About us - As leader in identity technologies, IDEMIA is on a mission to unlock the world and make it safer. Backed by cutting-edge R&D, IDEMIA provides unique technologies, underpinned by long-standing expertise in biometrics, cryptography, data analytics, systems and smart devices.

IDEMIA offers its public and private customers payment, connectivity, access control, travel, identity and public security solutions. Every day, around the world, IDEMIA secures billions of interactions in the physical and digital worlds. With nearly 15,000 employees, IDEMIA is trusted by over 600 governmental organizations and more than 2,300 enterprises spread over 180 countries, with an impactful, ethical and socially responsible approach.
