

# ID2Travel, one ID for a secure and seamless journey

## 1

### Convenient & fast passenger enrollment

To proceed securely and seamlessly through the airport, Ms. Smith can now use her biometrics to prove her identity remotely from home or at the airport. She is ready to fly in a matter of seconds.

#### Mobile enrollment

Ms. Smith can register from the comfort of her home using her smartphone.

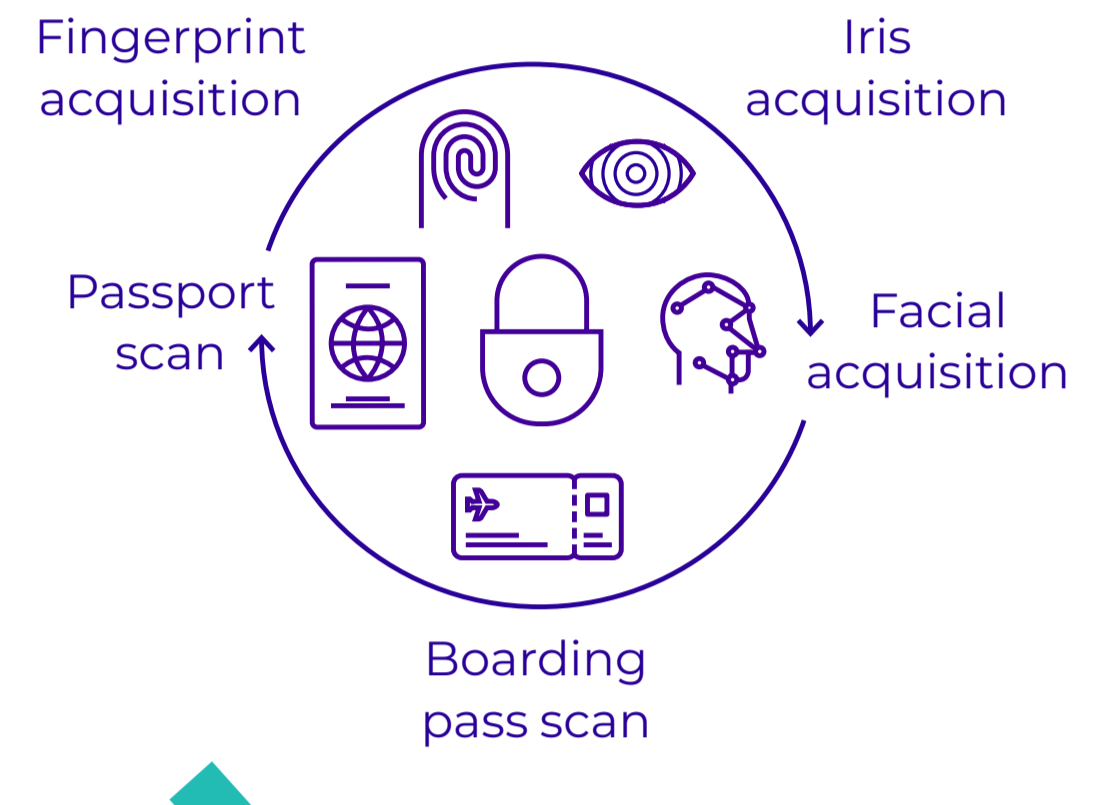

#### Enrollment at the airport

Ms. Smith can easily enroll at the airport thanks to contactless biometric capability – simply by looking at the camera or waving her hand at the self-bag drop, at the kiosk or at the counter.

#### Two ways to issue a unique, secure and genuine identifier containing the traveler's required information.

##### The traveler chooses:

- ▶ Option 1: Traveler's biometrics are securely stored **IN** the boarding pass.
- ▶ Option 2: Traveler's fingers, irises or face **ARE** the boarding pass.

OR

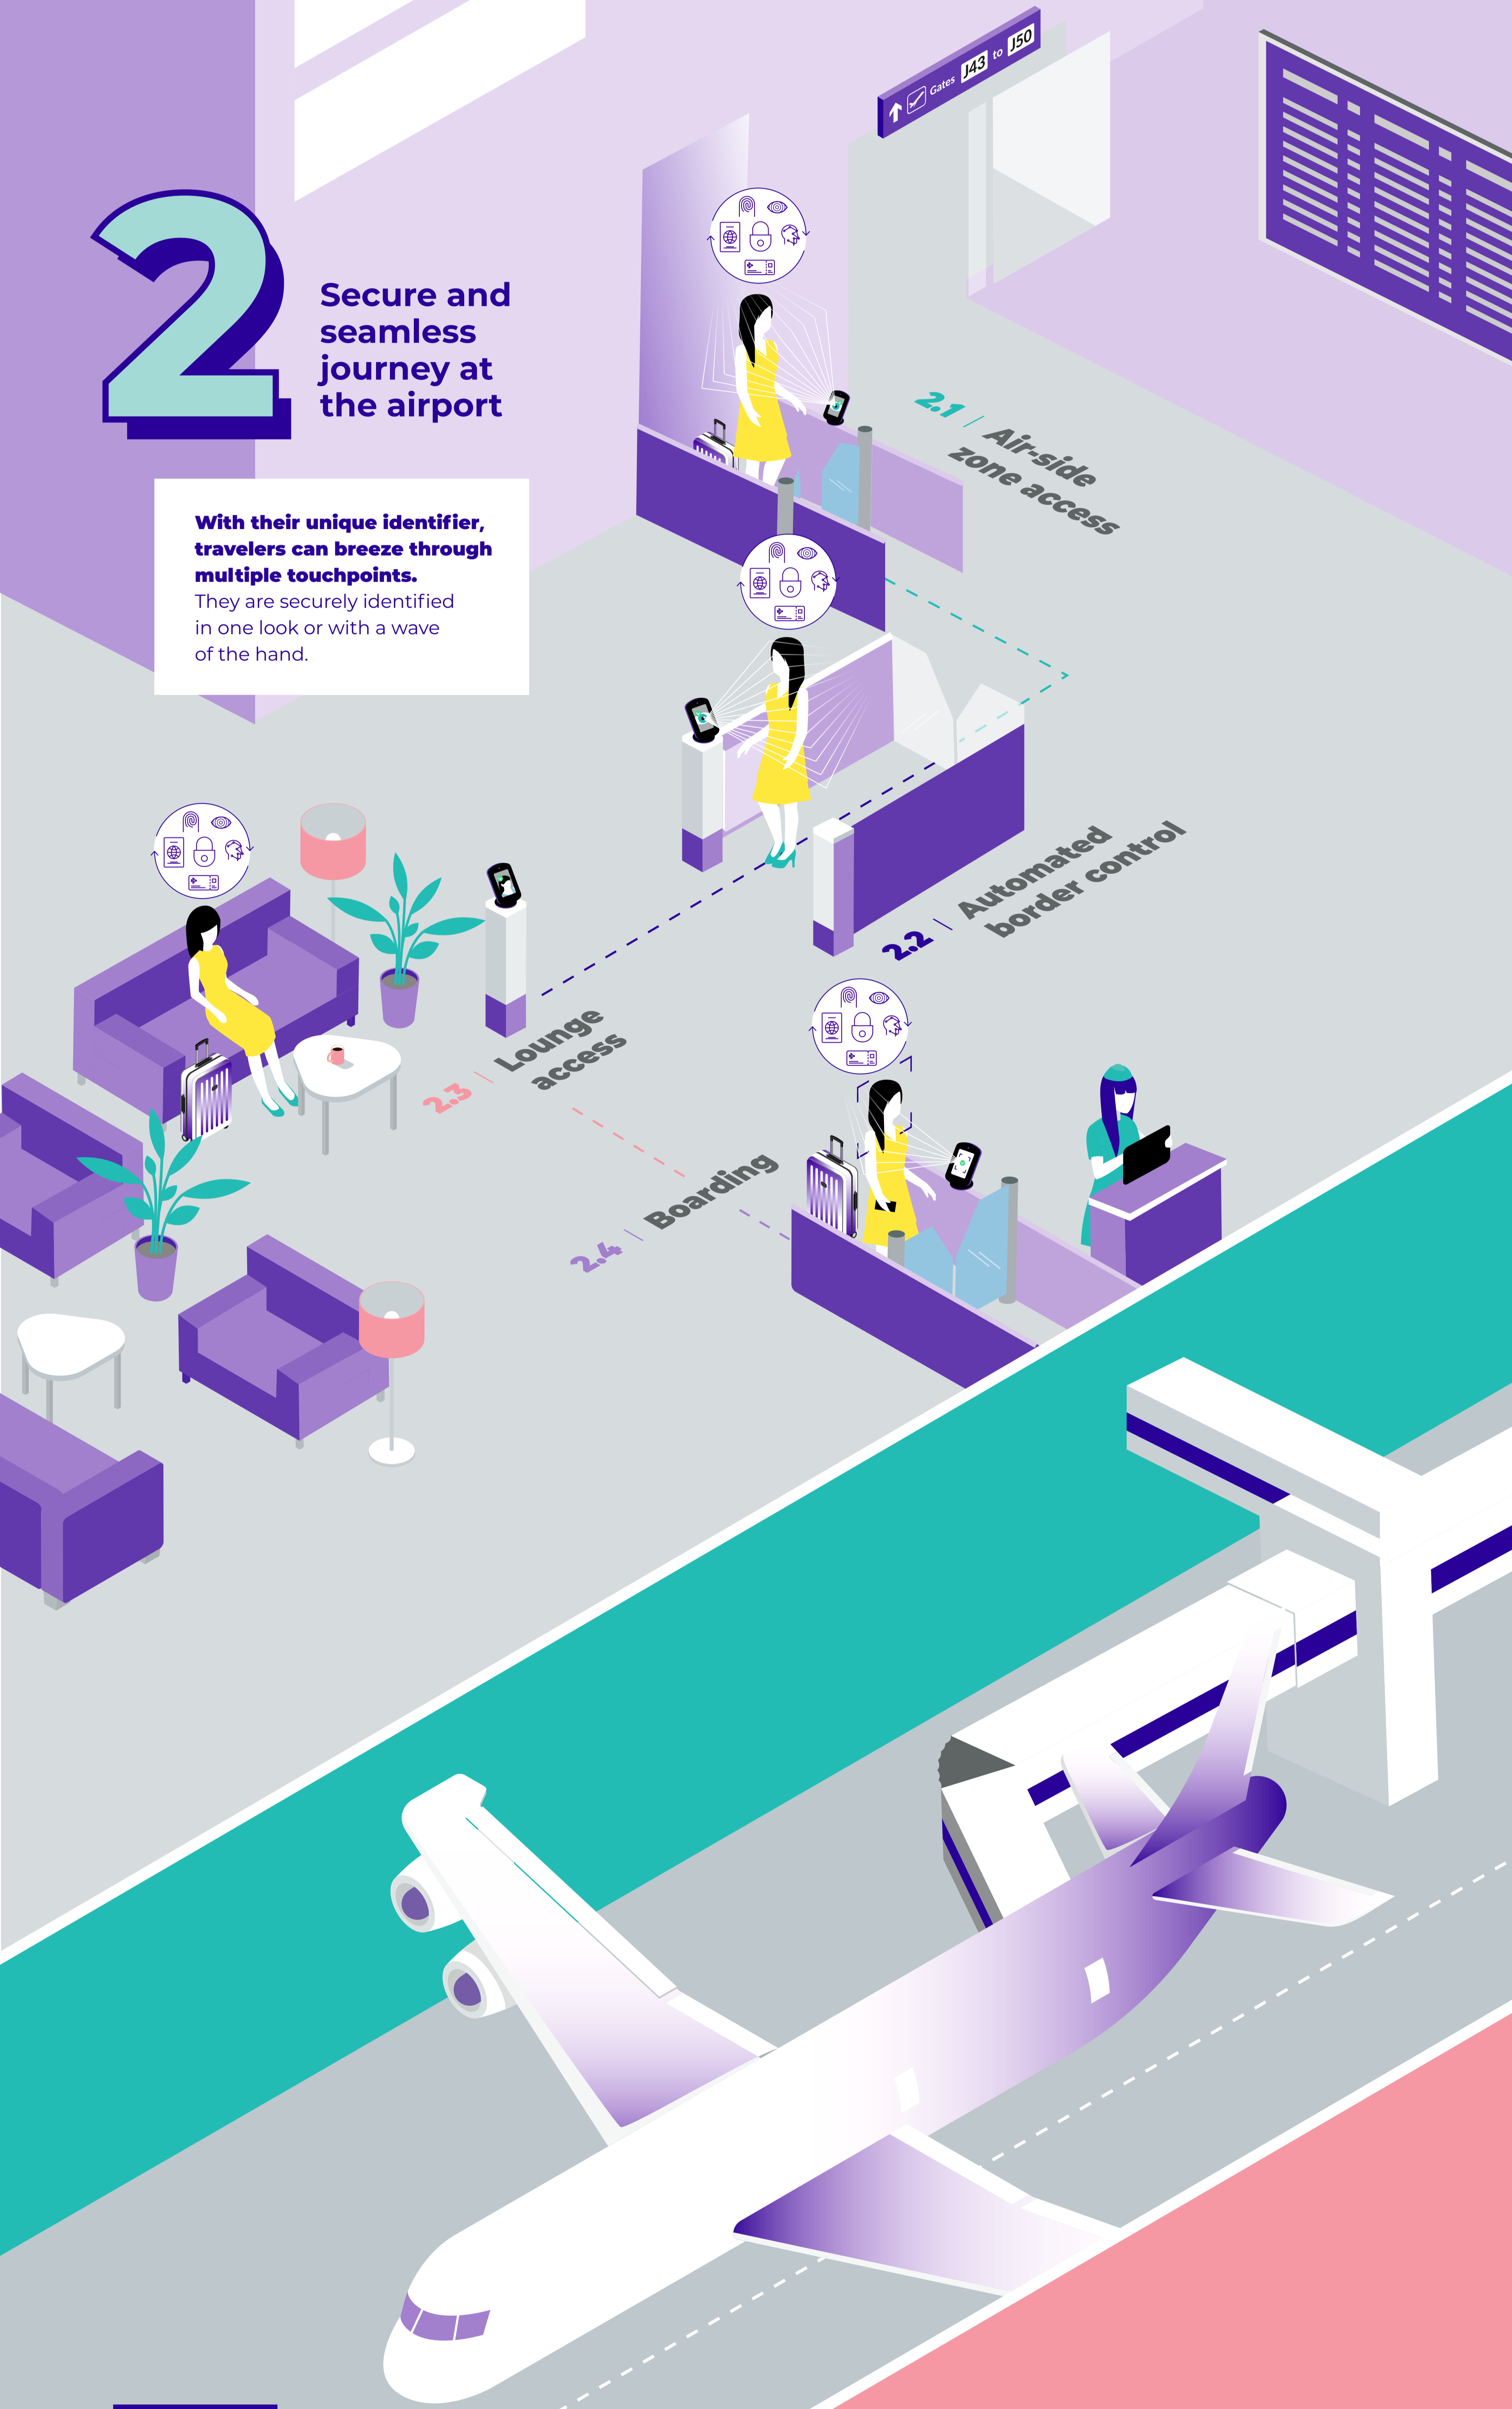

#### Secured identity

## 2

### Secure and seamless journey at the airport

#### With their unique identifier, travelers can breeze through multiple touchpoints.

They are securely identified in one look or with a wave of the hand.

## 3

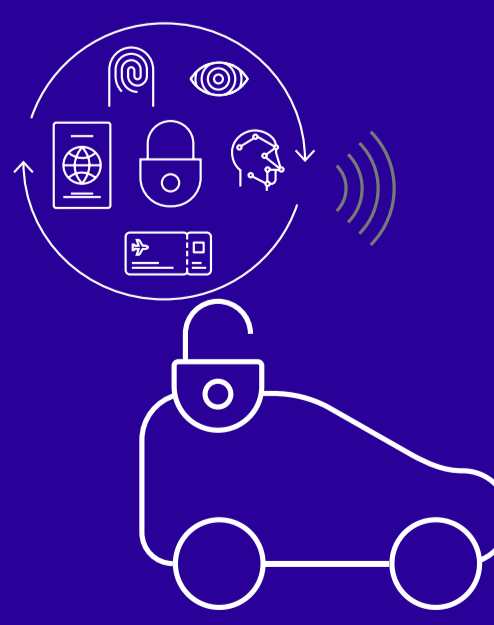

### Other services facilitated thanks to this highly secured identity

Ms. Smith can also use her unique identifier to ...

#### ▶ Pay at the Duty Free

#### ▶ Rent a car

#### ▶ Check in at the hotel
